Subject: GK Release - Planning and Status

Matt and company,

On Monday, I would like a meeting with you and Vince (and other's you may want to join) and the OSCs and START to discuss the status / progress / schedule on the various tasks for the site / response.

Waste Rock Removal / Channel Restoration

- Current operational plan
- Temporary Pipe Diversion - owner discussions / contingency
- Traffic Control requirements for hauling - (and coordination with County)
- Water mngrt /chemical requirements

Water Treatment - Temporary (current operations)

- Chemical supply and needs
- Operational check - hopper system, pump system
- By-pass options for GK flow

GK Mine - Adit Rehab

- Shotcrete
- Mucking operations relative to WT capacity

HDPE Pipe - contract and install timeline

Potential Interim Water Treatment (Temporary - approximate 12 month period)

Gladstone Power supply - timing, options, costs

Staffing and Schedules for personnel

Other topics - please feel free to fill in specifics our additional general items.

We can decide the best time to do this when we meet Monday. (My current preference would be first thing after the safety brief, but we can discuss that.)

Thank you,  
Steve
